

DOING THE  
MOST GOOD®

Dear Parents,

I am writing today to offer an exciting resource. The Road to Success is a community-based initiative to help struggling families find and keep a sustainable career path with the goal of a higher standard of living and employment with benefits.

The Road to Success program is being offered at The Salvation Army in Harrisburg and will provide help through mentoring, assisting, networking, and linking individuals to resources. If you are suffering from unemployment or are currently under-employed, which means working multiple jobs but not getting ahead, please call for more information.

The Workforce Development Specialist can assist to answer any questions and provide you with the necessary application to start their journey on the Road to Success.

#### **General Outline of the Road to Success.**

1. General information session: Overview of the program, identification of needs, discussion of previous employment and roadblocks.
2. Strategic planning session: Application to TSA, paperwork for the Road to Success program.
3. Skills assessment session: Crown Financial Assessment, resume writing, background check.
4. Financial education sessions: budgeting, money management, and strategies to save money.

We believe these sessions will build confidence, define and overcome previous obstacles, and encourage a life of sufficiency that will put you firmly on the Road to Success. Please call or visit the 1122 Green Street location for more information. We look forward to answering any questions and assisting you in finding a career that is fulfilling and meets the needs of your family.

Sincerely,

*Julie M. Reese*
