## NOTES ON PIT 2021

Due to COVID-19 there were extra CV resources to provide outreach and to shelter people, including in hotels. Outreach connected with coordinated entry optimized permanent supportive housing and other housing programs referral and utilization. However, because of COVID-19, our shelter capacity also diminished due to social distancing, and there was also a quarantining event during the PIT at one shelter, but overnight and hotel use does balance that reduction in year-round shelter facility capacity.

The number of homeless, 358 in the 2021 PIT, therefore, is lower than 402 in the previous year's January count. The number is lower in both shelter and unsheltered. For those who are unsheltered this is in part this is because of more and coordinated outreach combined with effective coordinated entry into permanent housing programs. A significant reason for a lower number of those in shelter is because the eviction moratorium prevented persons needing shelter, and because of shelter hesitancy due to COVID-19 for those who would otherwise seek shelter.
